

Map Legend	Approx acres: Reach E
 existing Priority Habitat (PH)	4,300
 recoverable PH	11,400
 PH lost to development	2,400
 unknown/unclassified	
 Area Not Analyzed	
 Reach boundary	

Extent of Existing and Potentially Recoverable Priority Habitats, Lower Columbia River Reach E.

- Notes:
- Priority habitats in this Reach include herbaceous tidal wetlands, and forested, shrub, and herbaceous uplands.
 - For the purpose of this analysis, 'recoverable' habitats include habitat types which could potentially be restored to a priority habitat type.
 - Results are based on the LCEP Historical Habitat Change Analysis (1870 - 2010).
